SUMMARY

Driven full-stack JavaScript developer specializing in MERN and modern backend tooling. Passionate about building scalable, high-performance applications using technologies like Next.js, Prisma, Drizzle, LangChain, LangGraph and Docker. Seeking opportunities to build production-ready applications and grow as a full-stack engineer.

EXPERIENCE

Frontend Developer Intern • Voyager IT Pvt. Ltd.

3-Month Internship | React.js | Kathmandu, Nepal

- ▶ Built and integrated an email service, improving user communication workflows across the platform.
- ▶ Developed and implemented a payment system, enabling seamless and secure in-app transactions for end users.
- ▶ Authored comprehensive API documentation, streamlining developer onboarding and cross-team collaboration.
- ▶ Designed and maintained reusable React.js UI components, contributing to a consistent and scalable frontend architecture.

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, Zustand, Redux, Responsive UI, Framer Motion, Axios, Tanstack Query, Tanstack Table, Tanstack Form, RHF, Tiptap, shadcn, Zod

Backend & APIs: Node.js, Express, GraphQL, Apollo Server, REST APIs, Redis, RabbitMQ

ORM & Database Tools: Prisma ORM, Drizzle ORM

Databases & Vector DBs: MongoDB, PostgreSQL, MySQL, Qdrant (Vector DB)

AI Integrations: LangChain, LangGraph

DevOps & Tools: Docker, Git, Vercel, Cloudinary, Multer

Soft Skills: Communication, teamwork, problem-solving, adaptability, time management

PROJECTS

Lavio AI Agent: [GitHub Link](#)

Next.js, React 19, TypeScript, LangChain, LangGraph, Prisma, MongoDB, Qdrant, Cloudinary, Tailwind CSS

- ▶ A modern full-stack AI assistant capable of web browsing, image understanding, and PDF-grounded answers.
- ▶ Built with Next.js 16 and LangChain using Groq-powered LLMs for ultra-fast inference, Prisma for scalable data modeling, and Qdrant for vector search RAG workflows.
- ▶ Supports secure Better Auth user sessions, Cloudinary uploads, and a clean React 19 UI for real-time AI interactions.

Learnly: [GitHub Link](#)

React, Node.js, Express, MongoDB, Tailwind CSS, Payment Gateway

- ▶ A full-stack Learning Management System enabling instructors to create courses, manage lessons, and upload media in bulk.
- ▶ Students can enroll in courses, track progress, view structured lesson content, and make payments via eSewa.

Image Gallery App: [GitHub Link](#)

React, Node.js, Express, MongoDB, Tailwind CSS, JWT

- ▶ Full-stack image gallery with complete authentication/authorization for secure personal gallery management.

- ▶ Includes social features such as liking and commenting on images for a community-driven experience.

WorkConnect: [GitHub Link](#)

React, Node.js, Express, MongoDB, Tailwind CSS, JWT

- ▶ A platform connecting local workers with job opportunities — employers post listings, workers browse and apply.
- ▶ Designed to streamline local hiring and empower workers in their communities.

E D U C A T I O N

BSc. CSIT (2026) • Tribhuvan University

High School (2019–2021) • Hope International Academy
