SUMMARY:

Motivated MERN Stack Developer with hands-on experience building dynamic, secure, and user-focused web applications. Skilled in modern JavaScript technologies, authentication systems, cloud image handling, and state management.

TECHNICAL SKILLS

Frontend: React.js, Redux, Tailwind CSS, TypeScript

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Auth: JWT, bcrypt

Cloud: Cloudinary, Multer

Version Control: Git & GitHub

PROJECTS

Image Gallery App: [Githublink](#)

Developed a full-stack MERN Image Gallery App with secure JWT authentication, Cloudinary-powered image uploads, and role-based protected routes. Implemented social features including likes, comments, saved collections, and “not interested” filtering. Built responsive, modern UI with React 19, Tailwind CSS, and React Router, while designing scalable Express APIs with Multer file handling, Cloudinary integration, and MongoDB models for users, images, comments, and saved items.

WorkConnect : [Githublink](#)

Developed a full-stack job marketplace platform featuring multi-role authentication (Worker, Hirer, Admin), JWT security, and Cloudinary-based profile uploads. Built intelligent job recommendation using a weighted algorithm that analyzes user job history. Implemented job posting, applications, applicant selection, and analytics dashboards with interactive charts. Designed responsive, modern UI using React 19 and Tailwind CSS, and built scalable Express APIs with role-based access control, data validation, and secure file handling.

To-Do List application: [Githublink](#)

Built a full-stack MERN To-Do List application featuring secure JWT authentication, protected routes, and bcrypt-based password hashing. Developed a modern, responsive UI using React 19 and Tailwind CSS with real-time task updates. Implemented full task CRUD operations with MongoDB persistence and structured Express APIs with controllers, middleware, and error handling for reliable backend performance.

EDUCATION

BSc. CSIT (Expected 2026) — Tribhuvan University

High School (2019–2021) — Hope International Academy
